

Making Change

Work out the change, then count it out

NAME

DATE

Take the price away from what you handed over. That is the **change**.

$$\text{What you paid} - \text{The price} = \text{Your change}$$

Work out the change, then count it out

First write how much change. Then write how many of each coin and bill you would hand back.

1. T-shirt \$14.50

You pay with

a) How much change do you get? \$

b) Count it out — how many of each do you hand back?

2. Book \$9.25

You pay with

a) How much change do you get? \$

b) Count it out — how many of each do you hand back?
