

Sales Tax Practice

Find the total price with 6% sales tax added

NAME

DATE

How to find the total price: multiply the price by 1.06. That gives you the total with the 6% tax already included.

$$\text{Total} = \text{Price} \times 1.06$$

$$\text{Example: } \$20.00 \times 1.06 = \$21.20$$

- 1. You buy an umbrella for \$14.00. What is the total price with tax?**

$$\$14.00 \times 1.06 = \$$$
